

Change the password of MetaTrader 5 software in Windows version

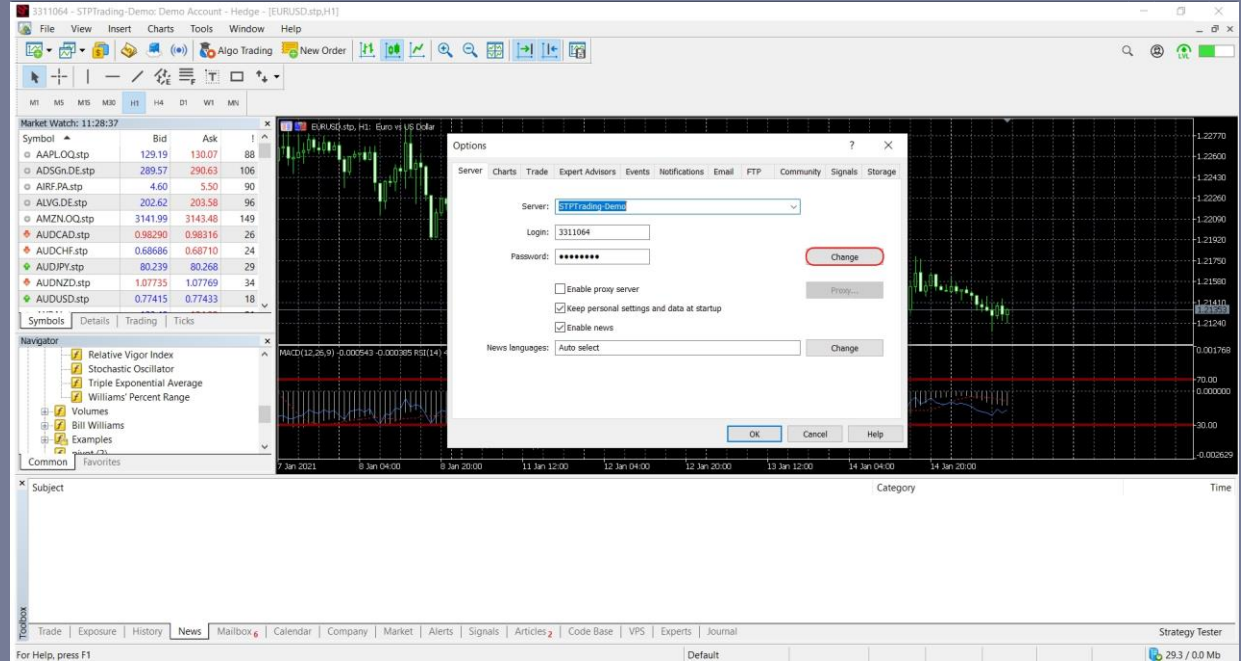

Change the password in Windows version

1. First, click on the **Tools** section.
2. Then choose **Options**.

Change the password in Windows version

3. select **change** button.

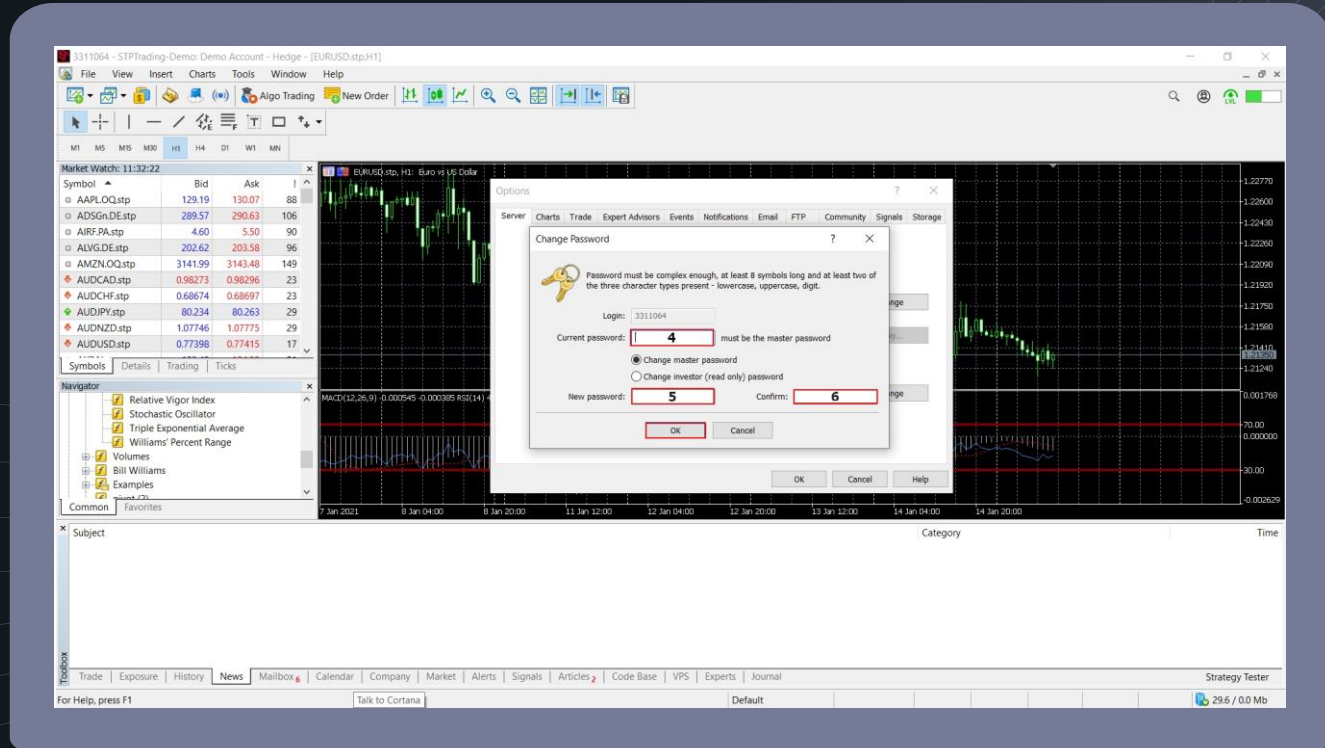

The screenshot displays the STP Trading software interface. The main window shows a market watch table, a chart of EUR/USD, and a Navigator panel. An 'Options' dialog box is open, allowing the user to change their password. The 'Server' is set to 'STPTrading-Demo', the 'Login' is '3311064', and the 'Password' field is masked with asterisks. A red circle highlights the 'Change' button next to the password field. Other options include 'Enable proxy server', 'Keep personal settings and data at startup', 'Enable news', and 'News languages'.
